Southlake Shout Out  
Values in the Moment

Vanessa is an incredibly hard worker and is highly dedicated to her role as a nurse.

Today, she had three patients discharged / transferred to another unit / transferred out of hospital. This meant she had the challenging role of admitting multiple new patients to the PICU. She was extremely efficient in admitting and assessing each patient while ensuring that others on the unit were supported.

She is constantly working above and beyond to provide patient care and aid other staff. She is an invaluable team member. Indeed, she worked extremely hard today, but

Values in the Moment

Hi Michelle

Today I believe Vanessa had a very busy day in PICU with 2 transfers and a patient transferred to another facility which meant she was getting 3 new patients from us on EMHAU. While giving her report on the first patient she was so positive and organized making very sensible suggestions to manage workload. In any experience I have had with Vanessa she is always polite, professional, friendly, upbeat and a pleasure to communicate with. She is a credit to your team.
